

Project Design Phase-II
Data Flow Diagram & User Stories

Date	28 september 2026
Team ID	SWTID-2026-1668
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders With Flow Designer.
Maximum Marks	4 Marks

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

DATA FLOW DIAGRAM: LAPTOP REQUEST & PROCUREMENT PROCESS (DFD LEVEL-0)

2. USER STORIES TEMPLATE

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance Criteria	Priority	Release
 Employee	Standard Laptop Request	USN-1	As an employee, I can submit a standard laptop order request through the service portal.	Request is logged and assigned a tracking ID.	High	Sprint-1
 Manager	Approval Workflow	USN-2	As a manager, I receive an automated notification to approve or reject my team member's laptop request.	Actionable buttons (Approve/Reject) are available in the notification email/portal.	High	Sprint-1
 Flow Designer	Automated Provisioning	USN-3	As a system administrator, I want Flow Designer to automatically trigger purchase orders once approval is granted.	Purchase order is sent to the IT vendor without manual intervention.	High	Sprint-2
 IT Procurement	Inventory Management	USN-4	As an IT procurement officer, I can view status updates and delivery logs of ordered laptops.	Dashboard updates accurately reflect procurement stages.	Medium	Sprint-2

TEMPLATE DESIGN - PROCESS OPTIMIZATION
